

## Recovery from SUD is the key to a **NEW BEGINNING!**

Community Healthcore's Kirkpatrick Family Center is a 90-day SUD intensive residential treatment center for women and their children, focusing on substance use education, parenting and life skills training.

The Kirkpatrick Family Center program assists women to develop their full potential by providing a safe, educational, and engaging SUD recovery environment.

## HOW TO BEGIN?

Begin with HOPE.

We realize that life has become out of control, and you are ready to make changes. There is hope!

The initial step is a simple screening phone call to determine eligibility. Our screening phone lines are 903.236.3898 and 903.236.3942.

During the screening process, you will receive an overview of our program services. We will also conduct a financial eligibility assessment to determine the cost of treatment and your payment options.

### YOU DECIDE!

It is important for you to keep in mind that it is you who has the ability to change, and you must make the decision. This is your responsibility.

## PROGRAM SERVICES

We believe the use of alcohol and drugs is a family disease. For that reason, we strongly encourage family participation. This may include parents, spouse, or significant other, and children.

Our ultimate goal is to equip women to overcome SUD, and to transition back into an independent environment within the community.

Some of the services we provide include:

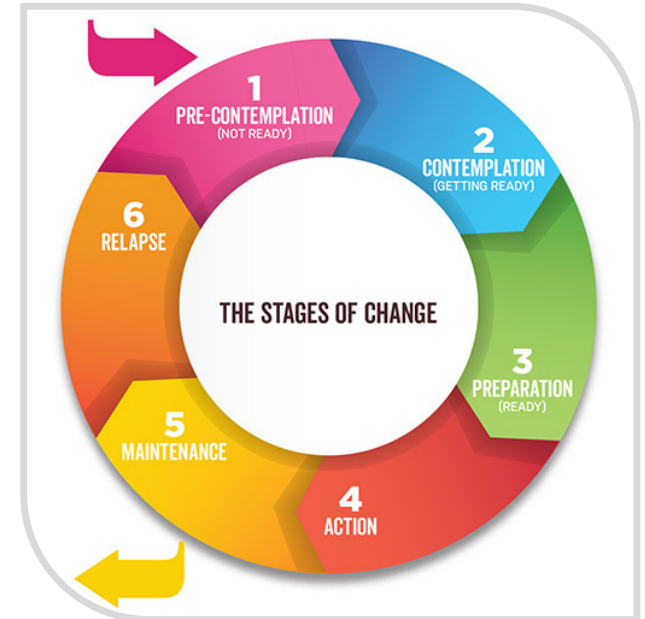

- Substance Use Education
- Group Process
- Parenting Classes
- HIV/STD Education
- Smoking Cessation
- Reproductive Health

## PRIORITY POPULATION

In order to qualify for intensive residential treatment services at Kirkpatrick Family Center, women must be 18 years old or older and meet one or more of the following criteria. Community Healthcore shall give preference for treatment services in the following Health and Human Services Commission (HHSC) established order of priority:

1. Pregnant injecting individuals
2. Pregnant substance users
3. Injecting drug users
4. Individuals identified as being at high risk for overdose
5. Individuals referred by the Department of Family and Protective Services (DFPS)
6. Individuals experiencing homelessness or housing instability
7. All other populations

## READY TO CHANGE?

## PROFESSIONAL STAFF

Wherever you may be in the change cycle, our staff is ready to join you in your journey to recovery. They are local members of our community who are licensed professionals qualified to treat individuals seeking to quit substance use and improve the quality of their life.

## RECOVERY IS POSSIBLE
